

Purple Pen Workshop

6pm – 9pm, Tuesday 27th April

Conference room, Dept of Local Government, Sport & Cultural Industries, 246 Vincent St, Leederville

Purple Pen is the course planning software used for all Orienteering WA events, and can also be used for training events and school orienteering courses. The developer has continued to improve Purple Pen, and add new features to make course planning easier.

Most Orienteering WA course planners have learned how to use Purple Pen 'on the job', and many only get to use it once a year at most, so a workshop covering all the features of Purple Pen is well overdue.

All Orienteering WA members are invited to attend the Workshop, which is free. Registration is essential, and you can do this in Eventor:

[Eventor Australia - Event information: Purple Pen Workshop \(orienteering.asn.au\)](https://www.eventor.com.au/australia-event-information-purple-pen-workshop-ori-teer-ing-asn-au)

Course planners for 2021 events, and all Event Controllers are particularly urged to attend (Controllers will earn re-accreditation points).

If you are a coach, the Workshop will demonstrate how Purple Pen can produce training and Sporting School activities very quickly, potentially saving hours of your time.

Would-be course planners (including Juniors) are also welcome to attend.

Contact me if you have any questions about the Workshop.
