

IOF athlete IDs Updated 30th Jan 2015

On 4th Dec 2014 the IOF opened the new IOF Eventor Website. **For this carnival entries from elites will still be made through Eventor: Orienteering Australia** but for future events entry will need to be made through IOF Eventor so it will be necessary to register with them

All entrants to MW21E or MW20E (WRE points are available for junior elites in the Elite Prologue as they will be doing the same course as the seniors), regardless of age, must provide an IOF athlete ID number.

Previous elite competitors should check that they have a valid new (re-issued in March: all numbers no letters) ID.

- If you have forgotten your number simply log on to Eventor IOF (or register if you have not done so before). If you look in My Pages you will see your IOF ID. Alternatively just go to Athletes in the menu and do a look up. This will only work with current elites.
- If you don't have a current ID (new type are all numbers) the system will assign one to you as you register.
