\$8 individual, \$16 family. **Courses for newcomers:** Very Easy, Easy, Moderate 2.

Note that **SI Air will be activated for the event.**

Fun stuff

The map and terrain is a combination vaguer areas with contour detail and steeper rocky areas.

There are very few grass seeds nor long grass, and lantana is generally less prevalent than our last use of the map. There are areas with slow run usually due to tree regrowth or fallen timber but generally the runnability is good in most places. Courses are undulating with some high-speed flatter areas and small ventures into steeper rockier areas which might be slow run due to fallen timber. Visibility is varied throughout the map and you will need to use different orienteering techniques depending upon the terrain.

Easy and Very Easy are on mostly well-defined tracks near the assembly area and don't require shadowing unless very inexperienced kids. Hard 5 involves some track running, a fence crossing and small sections through fallen timber but no hills. All other Hard courses are exactly that, Hard; and

involve at least one long leg and areas of hills, low viz and slow run. **Hard 1 to Hard 4 are also slightly longer than typical so if you are in doubt, run down a course.**
