### About This Event

This is the third event in the cumulative time Turbo Chook series of the Carnival That Never Will Be. It is a middle-distance event with seven courses ranging from hard to easy navigation standard. The terrain is moderately steep, complex granite. Runnability is generally good but areas with high levels of ground debris can be slower. Crossing of thick (dark green) creeks is slow unless marked crossings or lighter green passages are used.

### Where is the Start?

The arena is the same as that used for Turbo Chook 2.

From St Helens, take the Tasman Highway (A3) north for 2.4 kms then veer right onto Anson's Bay Road (C843). After a further 2.1 kms turn right onto Reid's Road. Watch for O signs after approximately 4.5 kms. The drive to the Arena from Reid's road is quite rough. Please take care. Allow 25 mins.

Coordinates are -41.270766, 148.248897

Parking is adjacent to the Arena. Space is limited so please following the direction of parking attendants.

### Where can I find results?

Results from an event are presented in four different places in slightly different ways.

#### Live Results

Regularly updated live results will be available on the WWW (where mobile network is available). Two sets of live results are being provided.

1. Provisional results after download accessed using the QR code or link below
2. Interim results at radio controls (where available). Links to these are provided from the provisional results

	<p><a href="https://tasorienteeing.asn.au/results/ctnwb/">https://tasorienteeing.asn.au/results/ctnwb/</a></p> <p>Select the class for which you want to see provisional results. You can choose how much detail (splits etc) you wish to see. This will show results for all finishers to date.</p> <p>Instead of selecting a class you can create up to two customised searches (filters) based on name or club. To refresh these search results ensure you re-click “Find” rather than refreshing the page in your browser. Refreshing your browser will clear the search filters.</p>
<b>Split Times</b> When viewing split times, you can sort by leg time or total time as at that leg using the “L” and “T” icons.	
<b>Radio Controls</b> If interim radio splits are available, click the red button to access them. This will show everyone recorded through the radio control whether they have finished or not.	

- **Eventor** shows the official results for each course or class and will be available the evening after the event. Go to [Results/Recent Results](#) and click on the results link for the event.
- **WinSplits** shows the time people have taken for each leg and will be available as soon as the results are available in Eventor. Click on “Split Times” at the top of each class/course.
- **Livelox** shows the routes people have taken on the course (if they have used a GPS and uploaded the data). Click on Livelox in the top bar for each class/course.
