

The String Course is Back!

We will be providing a String Course, intended for children who are not yet able to cope with a VE course or who want a bit of extra fun. Of course, supervising adults are also welcome.

Participants follow a cord over about 500 m, connecting 10 controls that each have a picture to recognise.

At each control a pin punch is used to mark a card, as above, on smaller versions of the same pictures, in order.

The 'punch card' needs to be collected from the caravan and when returning it completed each participant will get a small reward.

The start and finish will be near the caravan.

Please check in Eventor for the availability of the string course at subsequent events.
