### COURSE NOTES:

- Scale is 1:2000 with 2.5m contours. Map is A4.
- The area was mapped in January and is a small school campus, being used for the first time.
- Start is adjacent to the parking area.
- The terrain is typical of high school campuses. As the area is small, the courses are quite short. Both the Long & Short courses have a map flip.
- Feel free to run a second, or third, course to get your full O-experience for the day. There are enough different legs across the courses to keep you interested on your second run.
- Water – there will be no water supplied on courses or at the start or finish. Please bring your own water as required.
