COURSE NOTES:

Scale 1:7,500

Most navigation for the H and M courses is along tracks, with much of the vegetation on the map impassable. The published distance is straight line distance. The shortest feasible route will be moderately longer for the M and H4 courses, and substantially longer for the H2 course. The VE and E courses are set in the parkland around the lake. The E course includes a short bush section.

There are several unmapped tracks made by mountain bikers in the far south and particularly in the far north. Some new fences have been constructed and are not mapped, and some mapped fences are no longer there. There is some unmapped (but readily observable) vegetation regrowth in the rough open ground in the far north and in mid west. The courses have been designed so that the unmapped features should not have a significant bearing on route selection, or be overly confusing.

No water is provided on course. There is a water fountain near the lookout stairs.

The registration desk will be located in the Alan Thomas Music Shell. Public toilets available nearby.
