

## Sun 10 March - Rosenthal Creek, between Warwick and Stanthorpe

**Terrain:** Undulating semi-open to open grazing land with some areas of thicker vegetation, particularly along Rosenthal Creek; areas of scattered granite.

**Map notes:** Since the map was originally made, the vegetation has thickened up in many areas, since cattle are no longer grazed here. Consequently, the grass is longer and the weeds are higher, particularly after recent rain over summer. Gaiters and old socks are recommended as there are plenty of grass and weed seeds. Some of the minor tracks are not as obvious due to this extra growth.
