H2	6.2 km	160m	Hard
H3	4.8 km	170m	Hard
H4	3.1 km	90m	Hard
M	4.0 km	100m	Moderate
E	3.0 km	65m	Easy
VE	2.0 km	45m	Very Easy

COURSE NOTES:

- Start for H1-H4 and M is approximately 900 m from the assembly area, 50m climb.
Start for E and VE is adjacent to the assembly area.
- Finish is adjacent to the assembly area.
- Normal SI controls will be operating for this event.
- The map scale is 1:10,000 with 5 m contours.
- Runners **must not** enter any water features, including watercourses, puddles and run-off, as the event is in a water catchment area.
- There are many trailbike and other tracks throughout the map. Some tracks are old logging routes and may be indistinct. Most of the tracks have been recently mapped and should be accurate; however as the area is a popular riding area there may be some unmapped tracks. Beware of trailbikes using the tracks during the event.
- Terrain: the terrain is mostly open eucalypt forest with scattered rock features; boulders, rocky ground, bare rock surfaces and cliffs; and watercourses, although there may not be any water in the watercourse beds (depending on recent rainfall). Some parts have been burnt in recent time and are quite open, but thicker vegetation areas remain. Vegetation mapping has not been updated so should not be relied upon. Fences: are broken, burnt, missing, or present only as rusty wire (sometimes barbed) on the ground.
