

OY 7 Woodlands 14th July 2024 SI Air event, mainly spur gully with technical watercourses and erosion gullies.

Setter: Lachlan Howard

Controller: David Firman

PC: Tony Bryant

Date: Sunday July 14; starts 9:00am to 10:00am. Course Close **STRICTLY Midday.**

Map notes:

Please note the map has seen a large amount of new growth from the summer rain. Courses have been set based on the best terrain on the map. Termite mounds in most places are accurate but the map is five years old so they cannot be totally relied on for navigating.

Course notes:

Get excited, courses are technical and in places fast. Other areas are green and the best bet is to stay low in watercourses to avoid vegetation. Easy course has some pink tap in places where fences and creeks are broken/unclear.

Get keen and good luck.

Distances and courses:

This is a middle distance event. Please consider this when choosing your course.

Course	Distance Kms	Climb	Controls
H1	4.0	75m	17
H2	3.5	65m	15
H3	3.0	55m	13
H4	2.5	50m	11
