SI AIR

All competitors will use the SI Air timing system at all three races. SI Air is a "swipe" system which makes for faster punching, and more exciting racing and spectating. It is great fun to use. You will collect your pre-allocated SI Air stick at your first event of the weekend, then use the same stick in each race. You must return the stick at the end of your final race; a \$105 replacement fee applies for lost or damaged sticks.
