This event will be in one of the newest regional parks in the metropolitan area. There are areas of native bush mostly open fast run but with occasional areas of killer green and a challenging grid network of forest roads and fire trails.

Courses: There is no significant climb:

Course	Length
Division 1 hard	4800 m
Division 2 hard	4300 m
Division 3 moderate	4200 m
Division 4 moderate	3900 m
Division 5 moderate	3500 m
Easy	2200 m
Very Easy - NB has its own start	1700 m

A bush opportunity for metropolitan orienteers. . .

Full body cover is recommended. The area is very variable with fast run open forest to thick "tiger country". The bush is mainly native but there are scattered patches of lantana and there are patches of tiger pear with shoe penetrating spikes. The courses have been set to avoid the more problematic areas.

Metro #2 Parking is on the reserve side only of Mainwaring Street and Donovan Circuit
