

SMARTPHONE SCORE EVENT AT HIGHFIELDS FOR BIKE OR FOOT

For something different, a smartphone social event will be run at Highfields just north of Toowoomba on the afternoon of Saturday, October 28th.

Entrants can turn up anytime between 1.00pm and 3.00pm, and have up to 90 minutes to find as many control sites as they wish, either on their bikes or on foot.

For those unfamiliar with this type of event, It's a form of Orienteering that uses your SmartPhone for punching and timing, avoiding the need to put flags and SI units out on the course. As you ride or jog by the control site, your phone will "beep".

Entrants will need to download the Maprun APP beforehand and load the event on the day. Paper maps will be provided so you don't have to try to read your phone screen while riding!

The cost will be \$10 per adult member; \$7.50 for juniors 15 to 20; free entry to those 14 and under.

Payment can be made online via PayPal or cash on the day.

The assembly area will be at PeaceHaven Park in Kuhl's Road. Park in the car part or outside. The park has toilets/BBQ facilities and play areas for the kids.

For detail of what's required to get smartphone savvy refer to the separate information flyer provided.

Entry opens on Oct 9.
