

## Further Information on the new T-shirt

To get the best fit we recommend that you try-on a T-shirt at an event in the next fortnight.

But for people who can't get to an event, here is the information you need:

The photos show the men's shirt: the women's shirts have a lower neck and cap sleeves. The triangles are also a little smaller because the width is smaller.

Size chart: these are the size (in cm) of the actual garments:

Size	Small	Medium	Large	Extra large	2X Large
Men's chest	98	104	108	118	124
Men's length	44	46	48	48	49
Women's chest	80	86	90	96	(not known)
Women's length*	45	47	49	50	(not known)

\* Some women have found these T-shirts a little long, so we are negotiating with the company to try to get them made 2-3cm smaller.
