

## RROC EVENT INFORMATION

### WORKSHOP

**Date:** Saturday, February 3, 2018

**Map:** Toowoomba Grammar School, Herries St entrance. There will be some parking inside

**Program:**

9.00am - Course setting – set your courses for the year, not only to have them done and ready in advance but also where you can get help if needed. Also, a great time to start learning how to set courses so you can step up next year. It is very rewarding to see people enjoying the courses you have set! There are 2 programs, Corpse and Purple Pen. I would still like to see oyo and state champs courses set on corpse because of its extra features (direction arrows especially), but all other courses can be set on purple pen. These are both free programs [http://www.ore.com/corpse\\_desc.html](http://www.ore.com/corpse_desc.html) <http://purplepen.golde.org/>

11.30am - Event organisation, assembly area, set up and pack up – the trailer is working well, but it is really important that it is packed properly and that used items are replaced. If not, much valuable time is wasted at each event trying to set up

12.30pm - Lunch (provided). Please email or phone with dietary requirements (see below).

1.15pm - Proper care and use of our equipment – it's expensive so we want it to last!

2.30pm - Your input! Is there anything else you would like covered? We are always keen to know what you think.

**Please make every effort to come along. If you can only come for an hour, please come at 11.30, when we will be looking at the trailer and care of club equipment. This will be followed by lunch (provided). Juniors are very welcome! Lucy Hill won the President's award at age 15 and Jade, Alara and Caelan have won administrative awards. Then there are all our juniors who set courses and organised events long before their 18<sup>th</sup> birthdays. Apologies for not mentioning you by name but I'm proud to say there are so many I would be afraid of leaving someone out! Congratulations kids, you're terrific!**
