

# JUKOLA PARTY!

VIC JWOC TEAM FUNDRAISER

*The world's biggest orienteering race is coming and this year, Victorian orienteers will be getting together to watch the English broadcast!*

The Jukola relay is a Finnish orienteering institution with over 20,000 participants expected this year and a race that starts during the night and ends after dawn the next morning. In recent years, the quality of the coverage has been fantastic to watch- with expert English speaking commentators, GPS tracking and loads of cameras out in the forest. This year will be particularly interesting as it's on some incredible terrain with many Victorians/former Victorian scholars part of top teams that will be fighting it out for the title.

Although it might seem like an unusual way to spend your Sunday morning, watching an orienteering race as a group can be incredibly good fun. We guarantee there'll be passionate discussion about route choices, loads of laughs and incredible scenes when top teams crack under the pressure!
