Orienteering is a sport for all levels and all ages. You can participate for fun, or aim to represent your country at World Championships. It can be done in the bush or around town. In an orienteering event, you are given a map and sometimes a compass (not needed in a school environment) to find the controls. This event will use SportIdent electronic timing. You

can go around in a group or on your own; run or walk. Just bring a waterbottle, hat and walking shoes and come and try it!

Courses close at 10.30am.
