

“How to Enter the Family Relays”

It is intended that the Family relays will be run as a true relay. To do this we need to be well prepared and we need you to be accurate in your entry.

There will be 3 courses set for the Family relays

Course	(Elite Prologue class)
Long	The same course as M21E and M17-20E
Medium	The same course as W21E and W17-20E
Short	A new course set on the easy side of difficulty

The first thing you need to do is enter all the team members in the CSU Public Sprint Event. This is where we can collect your entry fee as the relay module does not support payment

Thu 9/4							
Fri 10/4	Aust 3 Days - Family Relay Entry only	Bennelong Northside Orienteers / Central Coast Orienteers / Goldseekers Orienteers / Orienteering NSW	Orienteering NSW	-	sta	R L	15/3*

I added two clubs to my list and was then able to add runners from other clubs by firstly selecting the club and then selecting the runner.
(PS this would be an unofficial team as they are only related via their first name and thus are not a “family”)

Teams entering the Family Relays will either:

1. Have no Elites involved
2. Have elites involved

No Elite involved

When entering, you will be asked to select a runner for each of the 3 legs: Long, Medium and Short. Click on each leg and add the runner. Save the team and continue through payment process. (There is no fee involved)

Elite/s Involved.

When filling in the names for your team please leave the leg vacant for your elite: Male elites all run the Long Course, Female elites will all run the Medium Course. (See table above).

NB: if you put their name in you will be paying for their run!

So that the elite runner can be linked to your team please email ronpallas@hotmail.com with the full list of names and the leg each person will run. WE have to do some manual magic between the elite prologue and the start of the family relay.

How will the relay work with Elite Runners?

So that we can run the event as a true relay all elite runners will be 1st starters. Once the race gets under way your team's second leg runner will wait in the tag box with an official who will start you at your elites finish time.

Eg if Julian Dent ran 15.25 in the elite prologue, Phoebe will be started by the official, in the tag box 15.25 after the relay begins.

In the case of a team with two elites then the third leg runner would start at the tag box at the combined time of the two previous elite legs.

Eg. If Julian Dent runs 15.25 in the Elite Prologue (long leg) and Felicity Brown ran 14.15 in Elite Prologue (Medium Leg) then Phoebe will start running the 3rd leg (Short) at 29.40

This way the first 3rd leg runner home will be the outright winner!

The team winning on Handicap will be announced at the presentation

NB: Only one male elite and one female elite can be included in any team.

(If by chance there is a team of 3elites then one of the three will have to go out and run the short leg!)
