

MapRun Instructions

Training Event – Australian MTBO Championships

Maryborough, 24-25 October 2019

BEFORE THE EVENT

- Charge your phone.
- Download MapRun app (one word—not Map my run)
- If MapRun already installed on your phone please update to version 50.1 or higher.
- Accept prompts for notification and location
- Enter your details into the MapRun app (name). All details are required
- Load the event
- Click EVENT LIST then “Geelong” then followed by “This week” and in that folder choose either *Line Course* (controls in number order) or *Score Course* (controls in any order).
- It may be quicker to load the event files onto your phone before you arrive at the event site, and you must have internet access to load the event course.
- We will have some loan phones available for use at the event pre-loaded with the event courses.

AT THE EVENT

If you don't have internet access at the event, and you downloaded the event beforehand, you can now *Reload the event*. Just click RELOAD and select the event course.

Select your course from the following:

Bull Gully Line Course 24-10-2019 **PXAC**

This is a Line course with 10 controls to be visited in number order.

Bull Gully Score Course 24-10-2019 **PXAS Score60**

This is a 60 minute score course – 20 points per control with 10 points deducted per minute late. 13 controls

RIDE TO THE START

Follow the dashed red line on your paper map to the actual start – 1 km.

ie. Cut through the reserve car park and across the grass to Majorca Rd, turn left (south) and ride down Majorca Rd for 600m to Nelson St, 3rd street on the right. Ride down Nelson St for 300m to the start, first track on the left.

NOTE: Everything on the East side of Majorca Road is OUT OF BOUNDS.

READY TO START?

Click **GO TO START**

You will be prompted to enter the PIN

SCORE Course PIN – 0111

LINE Course PIN – 4383

The map and controls will appear on the screen.

When you are ready to start, press ‘**Start the GPS**’. The phone display will ‘beep’ to show that you have visited the Start (start will turn green) and you can start riding.

DO NOT START IF THE START CONTROL DOES NOT REGISTER.

DURING THE EVENT

The phone should beep at each control and the control turns green. Phone display shows the number of controls visited and the last control number.

If a control beep is not recorded don't fuss. Your route will be verified later from the route recorded by your phone. Do not ride around looking for the beep.

AT THE FINISH

Pass through the ‘Finish’ control - **F** goes green.

If you have internet connection the results will automatically upload to the MapRun server and you can choose upload to Strava if you wish.

If the phone is still asking you to upload Results, connect to a local “hotspot” and upload results.

You can then view all scores and/or my results (tracking, splits, rate, distance, etc.)

MapRun results can also be found at

<http://maprunners.weebly.com/results.html>

If you visit all the controls but one or more did not register then advise the course controller who will review your route recorded by your phone and update as required.
