

Help Needed

The UFO (Urban Foot Orienteering Season) follows on from the Street Series and takes the form of line courses in Parks around the area. This provides a great introduction to the Bush Season. This all sounds a long way off at the moment but it will roll around very quickly. Course setters and vetters will be needed for this season.

If you think you are able to assist please add your name below. New course setters can receive assistance and mentoring from more experienced course setters. Each event will have a short (2-3km) and a long (4-6km) course as well as a mini course for children and novices (where possible).
