

TOOHEY FOREST CAR WRECK CHALLENGE devised by Geoff Peck (joffhk@gmail.com)

With the easing of COVID-19 travel restrictions, we are offering a socially-distanced forest orienteering challenge that you can do anytime. The aim of this challenge is to visit all eight wrecked cars marked on the Toohey Forest orienteering map.

Use the Toohey Forest map to find the car wrecks in Toohey Forest. Run either the **LONG** course (visit all 8 wrecks, approx 9 km total) or the **SHORT** course (visit any 4 wrecks, from 3.5 km total).

FREE EVENT.

Challenge 1: Plan your course

- download the PDF map on the Eventor page and locate the 8 car wrecks (shown as a black “x”) on the map. (If you can’t find them, email ugsecretary@oq.asn.au for a marked-up map)
- choose Start A (Lowndes St, Salisbury) or Start B (Isabella St, Tarragindi)
- decide the order in which to visit the controls
- you must finish where you started

Challenge 2: Run/walk the course

- Run/walk any day, any time,
- Respect the current COVID-19 restrictions and please respect other users of the forest!
- Use the MapRunF app. Enter your name and details
- Select event in the folder: Queensland/Brisbane South/Training
- “Go to start” and type in the PIN number (see below)
- Make sure your phone beeps at the start location.
- Your phone will beep within a few metres of each wreck
 - o for fairness, make the effort to find and touch the wreck with your foot 😊
- Your course ends when your phone beeps at the finish (back where you started).
- Your result will upload automatically if you are using data. Otherwise, choose “manual upload” later, when you are connected to wifi.

PINS

- Long Start A – TF Wrecks A – PIN 7971
- Long Start B – TF Wrecks B – PIN 6831
- Short Start A – TF Wrecks A (4 from 8) – PIN 2862
- Short Start B – TF Wrecks B (4 from 8) – PIN 9862

HAVE FUN!

***Tip:** If you have already opened the event once on your phone, using the PIN, you can reopen it at any time from the folder “Access Local Events (Offline)”.*
